

Biomimicry Youth Design Challenge: The Design Brief.. a place to start

Team members: _____

From the Design Brief hand out: Award-winning teams will:

Identify a specific problem to focus on and provide evidence that solving it will help address one or more SDGs.

Identify at least two SDGs which your team find interesting. Why are they of interest to you?

For each of them, describe what work has been accomplished and what work still needs to be done.

Propose a well-researched biomimicry solution to the problem

As you consider problems you may like to focus on, can you describe what solutions have already been attempted? Or could be modified?

Solutions may include any type of innovation, including the design of a physical technology, a process, or a system.

As you are exploring new solutions, what type of solution are you looking at?
